Overall Length:

0.592 inches

Overall Height:

0.160 inches

Overall Width:

0.500 inches

Operating Temperature Range:

-55.0/+100.0 degrees celsius

Circuit Connection Style Designator:

Bridge 1 phase

Absolute Maximum Voltage Rating In Volts Per Characteristic:

250.0 forward voltage, total rms

Absolute Maximum Current Rating Per Characteristic:

150.000 amperes peak point current

Special Features:

Environmental protection: corrosion and moisture; inclosure feature: plastic case

Material:

Silicon

Terminal Type And Quantity:

4 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A503h0
