Overall Length:

1.010 inches

Overall Diameter:

0.370 inches

Internal Configuration:

Point contact

Electrode Internally-electrically Connected To Case:

Collector

Internal Junction Configuration:

Npn

Features Provided:

Hermetically sealed case

Semiconductor Material:

Silicon

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
