Overall Length:

1.500 inches

Major Components:

Diode 2

Special Features:

Anode ends twisted together and diode bodies covered with clear plastic sleeving; component controlling agency: electronic communications inc.; component identifying number: p/n 20-001310027

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T01200
