| Overall Length:                             |
|---|
| Between 7.000 inches and 8.000 inches       |
| Overall Diameter:                           |
| 1.563 inches                                |
| Operating Tempurature Range:                |
| +0.0/+150.0 degrees celsius                 |
| <b>Circuit Connection Style Designator:</b> |
| Half-wave 1 phase                           |
| Mounting Method:                            |
| Terminal                                    |
| Special Features:                           |
| Ferrule 1                                   |
| Material:                                   |
| Silicon                                     |
| Terminal Type And Quantity:                 |
| 1 pin                                       |
| Shelf Life:                                 |
| N/a   |
| Unit Of Measure:                            |
|   |
| Demilitarization:                           |
| Yes - demil/mli                             |
| Fiig:                                       |
| A503h0                                      |
|   |
