Overall Length:

1.125 inches

Overall Height:

0.437 inches

Overall Width:

1.125 inches

Operating Temperature Range:

-55.0/+15.0 degrees celsius

Circuit Connection Style Designator:

Bridge 1 phase

Absolute Maximum Voltage Rating In Volts Per Characteristic:

200.0 working peak reverse voltage

Mounting Method:

Unthreaded hole

Material:

Silicon

Terminal Type And Quantity:

4 quick disconnect, male

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A503h0
