Overall Length:

0.755 inches

Overall Height:

0.280 inches

Overall Width:

0.920 inches

Operating Temperature Range:

+0.0/+55.0 degrees celsius

Circuit Connection Style Designator:

Bridge 1 phase

Absolute Maximum Voltage Rating In Volts Per Characteristic:

70.0 forward voltage, total rms

Absolute Maximum Current Rating Per Characteristic:

2.500 amperes peak point current

Mounting Method:

Unthreaded hole

Special Features:

Mtg hole 0.145 in.Dia; environmental protection: corrosion; inclosure feature: plastic case; lead type: resistive and capacitive; dc output maximum voltage rating: 100.0

Material:

Silicon

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A503h0
