**Overall Length:**

2.250 inches

**Overall Height:**

2.000 inches

**Overall Width:**

1.750 inches

**Circuit Connection Style Designator:**

Bridge 1 phase

**Mounting Method:**

Unthreaded hole

**Special Features:**

Grounded terminal not included; any acceptable load type; epoxy case; protected from corrosion and moisture; two 0.187 in. Dia. Mtg holes, 1.750 incenter to center; one each surge suppressor mtd on rectifier

**Material:**

Silicon

**Terminal Type And Quantity:**

4 threaded stud

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A503h0
