Overall Length:

2.250 inches

Overall Height:

2.000 inches

Overall Width:

1.750 inches

Circuit Connection Style Designator:

Bridge 1 phase

Mounting Method:

Unthreaded hole

Special Features:

Grounded terminal not included; any acceptable load type; epoxy case; protected from corrosion and moisture; two 0.187 in. Dia. Mtg holes, 1.750 incenter to center; one each surge suppressor mtd on rectifier

Material:

Silicon

Terminal Type And Quantity:

4 threaded stud

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A503h0
