Semiconductor Device Rectifier - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5961-01-063-8187 **Overall Length:** 2.250 inches **Overall Height:** 2.000 inches **Overall Width:** 1.750 inches **Circuit Connection Style Designator:** Bridge 1 phase **Mounting Method:** Unthreaded hole **Special Features:** Grounded terminal not included; any acceptable load type; epoxy case; protected from corrosion and moisture; two 0.187 in. Dia. Mtg holes, 1.750 incenter to center; one each surge suppressor mtd on rectifier Material: Silicon **Terminal Type And Quantity:** 4 threaded stud Shelf Life: N/a **Unit Of Measure: Demilitarization:**
