Overall Length:

2.250 inches

Overall Height:

0.375 inches

Overall Width:

0.350 inches

End Application:

Distance measuring equipment (dme)

Absolute Maximum Voltage Rating In Volts Per Characteristic:

100.0 working peak reverse voltage

Absolute Maximum Current Rating Per Characteristic:

15.00 amperes forward current, average

Mounting Method:

Unthreaded hole

Special Features:

Grounded terminal not included; aluminum case; 3 eyelet terminals; two mounting holes 0.169 dia

Material:

Silicon

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A503h0
