**Inclosure Material:**

Glass and ceramic

**Overall Length:**

Between 0.735 inches and 0.765 inches

**Overall Diameter:**

Between 0.215 inches and 0.220 inches

**Mounting Method:**

Press fit

**Features Provided:**

Hermetically sealed case

**Semiconductor Material:**

Silicon

**Special Features:**

Ku frequency band; 201-jan holder; basic type no. 1n4603; reverse polarity; junction pattern arrangement: pn

**Terminal Type And Quantity:**

1 case and 1 pin

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A110a0
