Inclosure Material:

Glass

Overall Length:

1.470 inches

Overall Diameter:

0.680 inches

Semiconductor Material:

Silicon

Maximum Operating Temperature Per Measurement Point:

190.0 degrees celsius ambient air

Special Features:

Reverse polari type 200.0 peak reverse voltage

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
