**Overall Length:**

1.000 inches

**Overall Height:**

0.250 inches

**Overall Width:**

1.000 inches

**End Application:**

Assembly control module no. 1071 for 10-gpm vacuum gravity/coalescer oil-water separator onboard 270 ft wmec coast guard vessels

**Circuit Connection Style Designator:**

Bridge 1 phase

**Absolute Maximum Voltage Rating In Volts Per Characteristic:**

24.0 source supply voltage

**Absolute Maximum Current Rating Per Characteristic:**

6.00 amperes total power dissipation

**Mounting Method:**

Plug-in

**Special Features:**

Full wave rectified input voltage, 6 amperes rms

**Material:**

Silicon

**Terminal Type And Quantity:**

4 pin

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A503j0
