Overall Length:

1.127 inches

Overall Height:

0.450 inches

Overall Width:

1.127 inches

Operating Temperature Range:

-55.0/+150.0 degrees celsius

Circuit Connection Style Designator:

Bridge 1 phase

Absolute Maximum Current Rating Per Characteristic:

10.00 microamperes reverse current, dc

Mounting Method:

Unthreaded hole

Material:

Silicon

Terminal Type And Quantity:

4 quick disconnect, male

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A503h0
