| Inclosure Material:                                                                                |
|----------------------------------------------------------------------------------------------------|
|                                                                                                    |
| Plastic                                                                                            |
| Overall Length:                                                                                    |
| Between 0.180 inches and 0.200 inches                                                              |
| Terminal Length:                                                                                   |
| 1.000 inches                                                                                       |
| Overall Diameter:                                                                                  |
| 0.150 inches                                                                                       |
| Mounting Method:                                                                                   |
| Terminal                                                                                           |
| Semiconductor Material:                                                                            |
| Silicon                                                                                            |
| Voltage Rating In Volts Per Characteristic:                                                        |
| 1000.0 reverse voltage, instantaneous and 1000.0 repetitive peak reverse voltage, peak total value |
| Current Rating Per Characteristic:                                                                 |
| 1.00 amperes forward current, average absolute and 100.00 amperes forward current, average preset  |
| Power Rating Per Characteristic:                                                                   |
| 1000.0 watts small-signal input power, common-collector pascal                                     |
| Maximum Operating Tempurature Per Measurement Point:                                               |
| 175.0 degrees celsius junction                                                                     |
| Terminal Type And Quantity:                                                                        |
| 2 uninsulated wire lead                                                                            |
| Shelf Life:                                                                                        |
| N/a                                                                                                |
| Unit Of Measure:                                                                                   |
|                                                                                                    |
| Demilitarization:                                                                                  |
| No                                                                                                 |
| Fiig:                                                                                              |
| A110a0                                                                                             |
|                                                                                                    |
|                                                                                                    |
|                                                                                                    |
