Inclosure Material:

Metal

End Application:

Inertial measuring unit, litton

Features Provided:

Gold plated leads

Voltage Rating In Volts Per Characteristic:

0.30 collector to emitter saturation voltage

Maximum Operating Tempurature Per Measurement Point:

125.0 degrees celsius ambient air

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
