Overall Length:

1.385 inches

Overall Height:

0.550 inches

Overall Width:

1.385 inches

Circuit Connection Style Designator:

Bridge 1 phase

Absolute Maximum Voltage Rating In Volts Per Characteristic:

1000.0 repetitive peak reverse voltage

Absolute Maximum Current Rating Per Characteristic:

400.00 amperes peak forward surge current

Material:

Silicon

Terminal Type And Quantity:

4 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A503j0
