Overall Length:

4.250 inches

Overall Height:

1.420 inches

Overall Width:

2.440 inches

Internal Configuration:

Junction contact-darlington connected

Voltage Rating In Volts Per Characteristic:

1000.0 collector-to-emitter, sustaining voltage, base open-circuited

Current Rating Per Characteristic:

300.00 amperes source cutoff current preset

Power Rating Per Characteristic:

1980.0 watts small-signal input power, common-collector horsepower metric

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
