Overall Length:

0.328 inches

Overall Height:

0.180 inches

Overall Width:

0.255 inches

Operating Temperature Range:

-55.0/+150.0 degrees celsius

Circuit Connection Style Designator:

Doubler 1 phase

Absolute Maximum Voltage Rating In Volts Per Characteristic:

100.0 repetitive peak reverse voltage, peak total value

Absolute Maximum Current Rating Per Characteristic:

10.00 microamperes reverse current, peak

Mounting Method:

Terminal

Material:

Silicon

Terminal Type And Quantity:

4 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A503j0
