Overall Length:

1.742 inches

End Application:

Sonar assembly, torpedo mk 50

Features Provided:

Electrostatic sensitive

Overall Width Across Flats:

0.684 inches

Semiconductor Material:

Silicon

Special Features:

Power, inverter, high voltage

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A110a0
