Inclosure Material:

Ceramic and metal

Overall Length:

15.18 millimeters

Terminal Length:

6.7 millimeters

Function For Which Designed:

Amplifier and oscillator

Internal Configuration:

Field effect

Mounting Method:

Terminal

Features Provided:

Hermetically sealed case

Semiconductor Material:

Gallium arsenide

Terminal Type And Quantity:

4 ribbon

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A110a0
