

View Online at <https://aerobasegroup.com/nsn/5961-01-361-2783>

Overall Length:

0.750 inches

Overall Height:

0.732 inches

Overall Width:

0.750 inches

Operating Temperature Range:

-55.0/+150.0 degrees celsius

Circuit Connection Style Designator:

Bridge 1 phase

Absolute Maximum Voltage Rating In Volts Per Characteristic:

600.0 peak inverse voltage

Absolute Maximum Current Rating Per Characteristic:

100.00 amperes peak forward surge current and 9.00 amperes average forward current averaged over a full 60-hz cycle

Mounting Method:

Unthreaded hole

Material:

Silicon

Terminal Type And Quantity:

4 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A503j0
