Inclosure Material:

Plastic

Overall Length:

0.788 inches

Component Name And Quantity:

6 transistor

Mounting Method:

Terminal

Semiconductor Material:

Silicon all transistor

Voltage Rating In Volts Per Characteristic:

20.0 collector to base voltage, dc all transistor

Terminal Type And Quantity:

14 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
