**Overall Length:**

2.300 inches

**Overall Width:**

1.350 inches

**Major Components:**

Diode 3, terminal block 2, printed circuit board 1

**End Application:**

Wlb status panel, main

**Special Features:**

Designed for negative common circuit

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T01200
