**Inclosure Material:**

Plastic

**Overall Length:**

3.0 millimeters

**Overall Height:**

1.1 millimeters

**Overall Width:**

2.5 millimeters

**Component Name And Quantity:**

2 semiconductor device diode

**Mounting Method:**

Terminal

**Semiconductor Material:**

Silicon all semiconductor device diode

**Voltage Rating In Volts Per Characteristic:**

30.0 reverse voltage, instantaneous all semiconductor

**Capacitance Rating In Picofarads:**

1.9 all semiconductor device diode

**Terminal Type And Quantity:**

3 printed circuit

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A110a0
