Inclosure Material:

Plastic

Overall Length:

3.0 millimeters

Overall Height:

1.1 millimeters

Overall Width:

2.5 millimeters

Component Name And Quantity:

2 semiconductor device diode

Mounting Method:

Terminal

Semiconductor Material:

Silicon all semiconductor device diode

Voltage Rating In Volts Per Characteristic:

30.0 reverse voltage, instantaneous all semiconductor

Capacitance Rating In Picofarads:

1.9 all semiconductor device diode

Terminal Type And Quantity:

3 printed circuit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
