Inclosure Material:

Glass

Overall Length:

Between 0.189 inches and 0.205 inches

Overall Diameter:

Between 0.094 inches and 0.102 inches

Features Provided:

Electrostatic sensitive

Voltage Rating In Volts Per Characteristic:

50.0 reverse voltage, peak

Current Rating Per Characteristic:

30.00 amperes forward current, average preset

Nuclear Hardness Critical Feature:

Hardened

Terminal Type And Quantity:

1 case

Specification Data:

07187-8520943 manufacturers specification control

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
