Overall Length: 0.785 inches	
Overall Height: 0.350 inches	
Overall Width: 0.320 inches	
	(Quantity)
Mounting Facility	duantity.
Component Name	e And Quantity:
4 transistor	
Mounting Method	1.
Terminal	•
	Volts Per Characteristic:
	emitter voltage/static/base open all transistor and 60.0 collector to base voltage, dc all transistor and 5.0 emitter to base
voltage, dc all trar	
-	er Characteristic:
_	rce cutoff current all transistor
Special Features:	
	on pattern arrangement: npn
Terminal Type Ar	nd Quantity:
14 pin	
Specification Dat	a:
07187-4014628 m	anufacturers specification control
Shelf Life:	
N/a	
Unit Of Measure:	
Demilitarization:	
No	
Fiig:	
A110a0
