Inclosure Material:

Plastic

Overall Length:

3.620 inches

Overall Height:

1.177 inches

Overall Width:

0.787 inches

Mounting Facility Quantity:

2

Mounting Method:

Unthreaded hole

Semiconductor Material:

Silicon alloy

Voltage Rating In Volts Per Characteristic:

1000.0 repetitive peak reverse voltage and 1000.0 nonrepetitive peak reverse voltage

Current Rating Per Characteristic:

55.00 amperes forward current, average and 86.00 amperes forward current, average of standard range

Terminal Type And Quantity:

2 screw

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
