Overall Length:

2.360 inches

Overall Width:

Between 0.340 inches and 0.360 inches

Operating Temperature Range:

-50.0/+150.0 degrees celsius

Absolute Maximum Voltage Rating In Volts Per Characteristic:

400.0 working peak reverse voltage

Absolute Maximum Current Rating Per Characteristic:

250.00 amperes peak forward surge current and 6.00 amperes average forward current averaged over a full 60-hz cycle

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A503h0
