NSN 5961-01-468-6866

Semiconductor Device Rectifier - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5961-01-468-6866

Overall Length:
2.360 inches
Overall Width:
Between 0.340 inches and 0.360 inches
Operating Tempurature Range:
-50.0/+150.0 degrees celsius
Absolute Maximum Voltage Rating In Volts Per Characteristic:
400.0 working peak reverse voltage
Absolute Maximum Current Rating Per Characteristic:
250.00 amperes peak forward surge current and 6.00 amperes average forward current averaged over a full 60-hz cycle
Terminal Type And Quantity:
2 wire lead
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:
No
Fiig:
A503h0
