**Overall Length:**

2.360 inches

**Overall Width:**

Between 0.340 inches and 0.360 inches

**Operating Temperature Range:**

-50.0/+150.0 degrees celsius

**Absolute Maximum Voltage Rating In Volts Per Characteristic:**

400.0 working peak reverse voltage

**Absolute Maximum Current Rating Per Characteristic:**

250.00 amperes peak forward surge current and 6.00 amperes average forward current averaged over a full 60-hz cycle

**Terminal Type And Quantity:**

2 wire lead

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A503h0
