Overall Length:

3.500 inches

Overall Height:

3.344 inches

Overall Width:

4.938 inches

End Application:

Nsn 5411-01-436-3326; shelter, nonexpandable, lightweight, multi purpose

Thready Qty Per Inch (tpi):

20

Thread Size:

0.250 inches

Special Features:

75a at 12v dc; negative ground electrical system only; uses schottky diodes per fed. Spec. Kkk-a-1822b; drawing name-isolator, battery; these solid-state parts prevent the battery with the higher charge draining into the lower, they also allow 2 batteries to be charged at the same time from one source

Thread Series Designator:

Unc

Terminal Type And Quantity:

2 threaded stud

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
