Overall Length:

2.265 inches

Overall Height:

1.140 inches

Overall Width:

1.750 inches

Operating Temperature Range:

-40.0/+125.0 degrees celsius

End Application:

Ordalt 16597, t-1090/spg-60, transmitter, radar

Circuit Connection Style Designator:

Half-wave 3 phase

Absolute Maximum Voltage Rating In Volts Per Characteristic:

1200.00 repetitive peak reverse voltage

Absolute Maximum Current Rating Per Characteristic:

1500.00 amperes peak on-state surge current

Mounting Method:

Slot and unthreaded hole

Material:

Silicon

Terminal Type And Quantity:

5 threaded hole

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A503j0
