Overall Length:

0.670 inches

Terminal Length:

0.500 inches

Overall Width:

0.210 inches

End Application:

Simple phototransistor modele 3c92c

Electrode Internally-electrically Connected To Case:

Collector

Semiconductor Material:

Gallium arsenide

Product Name:

Single channel linear optocoupler

Special Features:

Input to output voltage 500 volts; emitter collector voltage 5 volts; reverse input voltage 7 volts; continuous collector current 50ma; storage temperature minus 65 degrees centigrade, plus150 degrees centigrade; operating free air temperature range minus 55 degreescentigrade, 100 degrees centigrade; leadsolder temperature, 10 seconds max, 240degrees centigrade

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
