

View Online at <https://aerobasegroup.com/nsn/5961-01-527-8390>

Operating Temperature Range:

-40.0/+125.0 degrees celsius

Absolute Maximum Voltage Rating In Volts Per Characteristic:

480.0 repetitive peak reverse voltage

Absolute Maximum Current Rating Per Characteristic:

1500.00 amperes peak on-state surge current

Mounting Method:

Slot and unthreaded hole

Special Features:

External suppressor circuits 1, 2, 3, 6 and 7 only

Terminal Type And Quantity:

4 threaded hole

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A503j0
