Major Components:

Zener diode and blocking diode

End Application:

Nsn 1520-01-492-6324; helicopter, utility; w/s: helicopter, blackhawk ah-60

Usage Design:

Suppress voltage transients produced when switching inductive devices

Product Name:

In-line suppressor assembly

Special Features:

Heat shrink splice cap after soldering semiconductor twisted wires; use zener diode: p/n uz836hr and blocking diode p/n jantx1n649-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T01200
