Overall Length:

3.660 inches

Overall Height:

1.180 inches

Overall Width:

0.790 inches

End Application:

Controller, ac 18em-3-4-25hp3

Maximum Operating Temperature Per Measurement Point:

125.0 degrees celsius junction

Special Features:

Repetitive peak forward off state and reverse voltage: 1200v min, 1600v max; non repetitive peak reverse voltage: 1300v min, 1700 max; manimum rms on state current: 120a; on state voltage: 1.9v max; gate trigger current: 120ma

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
