Overall Length:

0.720 inches

Overall Width:

0.345 inches

End Application:

Psi items with sspo applications

Component Name And Quantity:

4 light emitting diode

Mounting Method:

Terminal

Color Tone Produced Per Source:

Green lens single light emitting diode

Product Name:

Led array

Special Features:

Used on printed circuit boards; color of light: green

Terminal Type And Quantity:

8 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
