Function For Which Designed:

Voltage regulator

End Application:

Pm 2002 power meter

Product Name:

Dual diode power head

Special Features:

3 primary functions are 1) converts rf or microwave power to equivalent voltage that can be processed by pwr meter; 2) present to the incident power and impedance; 3) introduce smallest drift and noise possible; 10 khz to 8 ghz frequency range; -60 to +20 dbm dynamic frequency range; 50 ohm impedance; 150 pw drift; 65 pw noise

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
