Semiconductor Device Rectifier - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5961-01-562-7653

Special Features:

forward voltage: 1.2; reverse recovery time: 2000; low thermal impedance, small size & low weight, high current applications, isolated for direct heatsink mounting, highsurge ratings. Part name assigned by controlling agency: bridge rectifier

Shelf Life:

N/a

Unit Of Measure:

Demilitarization:

No

Fiig:

A503h0
