Product Name:

Diode; surface mount rf schottky barrier diodes

Special Features:

Surface mount package; high breakdown voltage; low fit (failure in time) rate; six-sigma quality level; designed for both analog and digital applications; optimized for high voltage applications; series configuration; 25 degrees c, single diode

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A110a0
