End Application:

Transistor

Product Name:

P-channel 60v (d-s) mosfet

Special Features:

Halogen-free according to iec 61249-2-21 definition; trenchfet power mosfet; high-side switching; low threshold: -2v (typically); fast switching speed: 20 ns (typ); low input capacitance: 20pf (typ)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
