Features Provided:

High power

Capacitance Rating In Picofarads:

17.0

Maximum Operating Temperature Per Measurement Point:

-65.0 degrees celsius junction and 150.0 degrees celsius junction

Product Name:

Fast rectifier

Special Features:

Storage temperature range = -65 to 150 celsius (same as operating junction temperature)

Special Test Features:

High surge current capability, low forward voltage drop, high reliability, high current capability

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
