Voltage Rating In Volts Per Characteristic:

60.0 collector-to-emitter, sustaining voltage, base open-circuited and 60.0 collector to base voltage, dc and 5.0 emitter to base voltage, static, collector open

Current Rating Per Characteristic:

800.00 milliamperes collector current, instantaneous

Maximum Operating Temperature Per Measurement Point:

150.0 degrees celsius junction

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
