**Absolute Maximum Voltage Rating In Volts Per Characteristic:**

150.0 repetitive peak reverse voltage

**Absolute Maximum Current Rating Per Characteristic:**

20.00 amperes forward current, average

**Mounting Method:**

Unthreaded hole

**Special Features:**

Operation up to 175 degrees c junction temperature; center tap configuration; low forward voltage drop; high frequency operation; guard ring

**Terminal Type And Quantity:**

3 pin

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A503j0
