Absolute Maximum Voltage Rating In Volts Per Characteristic:

150.0 repetitive peak reverse voltage

Absolute Maximum Current Rating Per Characteristic:

20.00 amperes forward current, average

Mounting Method:

Unthreaded hole

Special Features:

Operation up to 175 degrees c junction temperature; center tap configuration; low forward voltage drop; high frequency operation; guard ring

Terminal Type And Quantity:

3 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A503j0
