Absolute Maximum Voltage Rating In Volts Per Characteristic:
150.0 repetitive peak reverse voltage
Absolute Maximum Current Rating Per Characteristic:
20.00 amperes forward current, average
Mounting Method:
Jnthreaded hole
Special Features:
Operation up to 175 degrees c junction temperature; center tap configuration; low forward voltage drop; high frequency operation; guard
ring
Terminal Type And Quantity:
3 pin
Shelf Life:
N/a
Unit Of Measure:
-
Demilitarization:
