Overall Length:

2.470 inches

Overall Diameter:

0.038 inches

Product Name:

Low barrier schottky diode detectors

Special Features:

Accuracy measuring transmission and reflection characteristics in cw or swept-frequency measurements. .01 to 12.4 ghz, 1 watt short-term max, type n male input connector, bnc female output connector, weight 4 ounces, agilent replacement pn 00423-60003

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A110a0
