**Overall Length:**

14.750 inches

**Overall Width:**

3.500 inches

**Rectification Method:**

Inverter ac to dc

**Voltage Rating In Volts Per Characteristic:**

27.0 breakdown voltage, dc

**Power Rating Per Characteristic:**

1200.0 watts power output

**Maximum Operating Temperature Per Measurement Point:**

65.0 degrees celsius ambient air

**Product Name:**

Mercury range 12v front-ends / rectifiers

**Special Features:**

Droop cs; ttl; standard alarm; 2u; depth 4.2 inch

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A110a0
